Per our discussion earlier, a copy of the Letter Report was sent to you and Gail on August 11, 2006. Attached is the Letter Report with Figures. The rest of the attachments, like the photo logs are to big to email. I will make you another hard copy and overnight it today. If you need to get Sally or Tom a hard copy today, see if Gail has her copy.

Let me know if you need anything else.

Ben,

I just realized that I never received the final report for the Universal Form Clamp ER Site. Could you let me if it's completed? Thank you.

Mike Harris

Hi, Mike -

Did you reassign the Universal Form Clamp Site to someone else, since you are now Section Chief? If not, can you answer the questions that follow, or if you have assigned someone else, could you please forward this message to that person?

1. I would appreciate receiving an electronic copy of START's Final Report, and if the PRP submitted a report concerning the clean-up, could I have a copy of that too?

2. Also, it has been 3 months since the removal completion date (August 31, 2006). Although I recognize that it may take several months for all bills to be paid, since the PRP did the removal action voluntarily under U.S. EPA oversight, I was thinking that U.S. EPA may have paid all contractor bills by now. I would like to send to request an Itemized Cost Summary for a demand letter, but I need to be sure all bills have been paid first. Also, if we send a demand letter sooner rather than later, it is possible that the insurance case for the fire would still be open and Universal could seek insurance money to pay for U.S. EPA oversight.

Thanks, Mike

Sally 3-9046

Please let me know what you find out. Thanks, Mike.

We should use August 31 as the demob date. I need to check on the  
Letter Report.

Universal Form Clamp question

Hi, Mike

I have to bother you with a few more questions on Universal Form Clamp:

\* Did START generate the Letter Report mentioned in Pol Rep 4? If yes,  
could you please e-mail an electronic copy?

\* Also, what do you consider the demobilization date? PolRep 4 states  
that U.S. EPA demobilized from the Site on August 3, but recall that Tom  
K. agreed that another Pol Rep should be done after the roll-off was  
transported off the site, which according to Pol Rep 5 occurred on  
August 31. I ask this because it is my understanding that we are now  
using the demobilization date as the basis for the SOL. Should we use  
August 3 or August 31?
